SUMMARY

MERN Stack Developer with hands-on experience building 2 full-stack, real-time web applications and completing a front-end development internship. Skilled in React.js, Node.js, Express.js, MongoDB, JWT authentication, and REST API design, with a strong foundation in Data Structures & Algorithms (NPTEL/IIT Kharagpur certified).

EDUCATION

Raj Kumar Goel Institute of Technology, Uttar Pradesh

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.3)

2022 – 2026

Ghaziabad, India

Syadwad Jain Academy, Baghpat, Uttar Pradesh

Higher Secondary Education (Percentage: 93.40%)

2021 – 2022

Baghpat, India

Syadwad Jain Academy, Baghpat, Uttar Pradesh

Secondary Education (Percentage: 84.60%)

2019 – 2020

Baghpat, India

SKILLS

Programming Languages: Java, C++, JavaScript

Front-End Technologies: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Back-End Technologies: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO

Databases: MongoDB, MySQL

Developer Tools & Platforms: Git, GitHub, Postman, Netlify, VS Code

EXPERIENCE

Web Developer Intern | Netcamp

jun 2025 – Aug 2025

- Completed a 3-month internship focused on core JavaScript, DOM manipulation, and front-end development fundamentals, completing 2 hands-on coding modules under mentor supervision.
- Built a fully functional Snake game from scratch using JavaScript and HTML5 Canvas, implementing 4 core mechanics: real-time collision detection, dynamic score tracking, keyboard controls, and game-over logic.
- Practiced game-loop and event-driven programming concepts under mentor guidance across 3+ coding exercises, strengthening debugging and problem-solving skills applicable to production web development.

PROJECTS

ChatHub – Real-Time Chat Application | MongoDB, Express.js, React.js, Node.js, Socket.IO

2025 – 2026

- Built a real-time chat application on the MERN stack supporting instant messaging across multiple concurrent chat rooms using Socket.IO, cutting message delivery latency to under 100ms.
- Integrated the OpenAI API to power an AI chatbot supporting 3+ automated interaction types (FAQs, greetings, and query responses), reducing manual reply effort.
- Added multilingual translation (5+ languages) and text-to-speech support, extending accessibility to non-English-speaking users.
- Implemented JWT-based authentication and secured all 10+ API routes, eliminating unauthorized access to protected endpoints.
- Designed a fully responsive UI with Tailwind CSS, achieving consistent layout across 3 device breakpoints (mobile, tablet, desktop).

MERN Stack E-Commerce Application | MongoDB, Express.js, React.js, Node.js

2024 – 2025

- Developed a full-stack e-commerce platform supporting 3 core workflows — product listing, cart management, and order processing — using the MERN stack.
- Implemented JWT authentication with Role-Based Access Control across 3 user roles (admin, seller, customer), securing all protected routes.
- Architected 15+ RESTful API endpoints to handle product management, cart operations, and user account actions.
- Optimized MongoDB queries and backend API logic, cutting average response and load time by roughly 30%.

CERTIFICATIONS

- Data Structures & Algorithms using Java — NPTEL, IIT Kharagpur (Jul 2025 – Oct 2025)
- Java Programming — Physics Wallah (Jun 2025 – Feb 2026)
- C++ Programming — Physics Wallah (Mar 2024 – Oct 2025)
- Web Development Certification (Dec 2025)
